ANNEX 2

LIST OF NATIONAL OPERATIONAL CONTACT POINTS RESPONSIBLE FOR THE RECEIPT, TRANSMISSION AND PROCESSING OF URGENT REPORTS ON INCIDENTS INVOLVING HARMFUL SUBSTANCES, INCLUDING OIL FROM SHIPS TO COASTAL STATES

1 The following information is provided to enable compliance with Regulation 26 of Annex 1 of the International Convention for the Prevention of Pollution from Ships, 1973 as modified by the Protocol of 1978 relating thereto (MARPOL 73/78) which, *inter alia*, requires that the shipboard oil pollution emergency plans shall contain a list of authorities or persons to be contacted in the event of an oil pollution incident. Further, the Guidelines for the Development of Shipboard Oil Pollution Emergency Plans published by the International Maritime Organization requires that shipboard oil pollution emergency plans should include, as an appendix, the list of agencies or officials of administrations responsible for receiving and processing reports as developed and up-dated by the Organization in compliance with Article 8 (Reports on incidents involving harmful substances) and Protocol I (Provisions concerning Reports on Incidents Involving Harmful Substances) of MARPOL 73/78. Requirements for oil pollution emergency plans and relevant oil pollution reporting procedures are also contained in Articles 3 and 4, respectively, of the International Convention on Oil Pollution Preparedness, Response and Co-operation (OPRC), 1990.

2 Attention is drawn to the Guidelines for the Development of Shipboard Oil Pollution Emergency Plans, which stipulates that "in the absence of a listed focal point, or should any undue delay be experienced in contacting the responsible authority by direct means, the master should be advised to contact the nearest coastal radio station, designated ship movement reporting station or rescue co-ordination centre (RCC) by the quickest available means".

3 Under Article 8 of MARPOL 73/78, each Party to the Convention shall notify the Organization with complete details of authorities responsible for receiving and processing reports on incidents for circulation to other Parties and Member States of the Organization.

4 The List of National Operational Contact Points which is being issued as an MSC-MEPC circular has been compiled from information provided by Member States in response to the OPRC Questionnaire or directly, with amendments to the list. The information presented with an asterisk has been supplied by the International Tanker Owners Pollution Federation Limited (ITOPF). This document updates the previous list issued as MSC-MEPC.6/Circ.1 dated 31 December 2005.

5 The List of National Operational Contact Points is available on the Internet and can be accessed as follows: <http://www.imo.org> (select 'IMO Circulars/Contact Points' or 'National Contacts').

The version of the list on the Internet will be updated as amendments are received and will have on page 2 a summary indicating the country entry changed since its last update. The printed copy of the list will be up-dated and re-issued annually

6. On receipt of this latest version, and in order to maintain an accurate list, it is necessary that authorities check their respective entry for any inaccuracies, amendments, or updates and inform the IMO Secretariat immediately, at:
